Some common questions

WHO IS THE TREATMENT SUITABLE FOR?

The treatment is suitable for women and men of all ages either as a corrective body treatment or as a relaxing electro-massage.

WHAT AREAS CAN BE TREATED?

The electro cellulite massager can be used to for massaging areas of stubborn cellulite • Soothing tired aching muscles • Relieving painful stress nodules • Lifting and firming buttocks • Contouring and toning legs, thighs and stomach • Stimulating the circulation.

HOW QUICKLY WILL I SEE RESULTS?

You should see and feel results with the very first treatment.

DOES THE TREATMENT HURT?

The treatment is both relaxing, safe and painless. All you will feel is the gentle rolling action of the massager. Even the most sensitive skin will only experience a slight tingling sensation.

HOW MANY TREATMENTS DO I NEED?

For maximum results a course of treatments is recommended followed by a monthly maintenance treatment. Your therapist will advise on your individual course requirements.

CACI

NON-SURGICAL FACE AND BODY TREATMENT

CACI gently helps tighten and tone sagging muscles whilst smoothing the appearance of fine lines and wrinkles. The dual-tipped probes increase the effect on the muscle producing immediate and dramatic results.

facial toning

CACI's unique roller bars achieve excellent results on problem areas such as the abdomen and bust, particularly difficult to tone after childbirth and surgery. Stretch marks and scar tissue can also be successfully treated.

inch reduction

An impressive feature of CACI is the simultaneous use of pads and probes. These target both the face and neck area at the same time, making for a doubly effective treatment.

CACI

NON-SURGICAL FACE AND BODY TREATMENT

The CACI (Computer Aided Cosmetology Instrument) is the result of 20 years research by the acknowledged pioneer of microcurrent therapy, Dr Thomas Wing.

This revolutionary treatment has been acclaimed by the international media as probably the most exciting beauty development of the last decade.

CACI is now to be found in the world's leading clinics, salons and health spas.

CACI works by combining a unique patented waveform (Tsunami®), with the naturally occurring bio-electric current of the body, to achieve instantly visible results on sagging muscles and skin tissue.

The CACI treatment programme consists of a course of deeply relaxing treatment sessions, followed by a maintenance programme of just 8 to 10 CACI treatments each year.

CACI has attracted an unrivalled celebrity following, making it the most publicised and talked about treatment in the industry's history. CACI clients include famous faces from the world of show business, music, media and royalty.

CACI has a variety of different applicators that enable your therapist to customise face and body treatments to your individual needs and requirements.

CACI offers, for the first time, a viable alternative to surgery in an increasingly appearance conscious world.
